Katie

Birdsfoot Farm has been growing certified organic vegetables, flowers, and herbs for over 30 years. We sell at the Canton Farmers Market, the Potsdam Food Coop, North Country Grown Cooperative and Finger Lakes Organic Growers Cooperative. We also host a lively CSA. Birdsfoot Farm is an intentional community of nine adults and five children. The Veggie Business is set up as a partnership. This year the gardens are managed by Dulli Tengeler and Katie Fagerlund.

CSA is a commitment from the grower to provide in-season vegetables to members. Members pay the farmer up front, or in an installment plan, pick up vegetables weekly, and volunteer three hours a season to help the CSA. (We do accept food stamps.) The benefit to the farmer is a guaranteed market. In return, the member receives fresh, local, in-season vegetables and herbs. If there is a shortage of a crop, other crops of the same value may be substituted. If there is an overflow, members might get extra. There may also be larger quantities for freezing and canning at wholesale prices.

If you are interested in supporting your local farmer, contact us. Don't worry about what to cook for dinner; the answer lies in your box. This year we plan to have 80 members.

A personal note: For me, farming is a passion. Sometimes it is repetitious and tiresome but there is always something new to learn and I feel in harmony with the soil and plants. Farming is a way of living. Farming grows good food for people and is a service to the greater community, as well as a source of income that provides opportunities for generations to come. –Dulli

___ I would like to pay the entire amount by May 30
 ___ I would like to pay half by May 30 and the other half by August 30
 ___ I would like to pay with food stamps, beginning either Friday June 10 or Tuesday June 14

Member Agreement:

Members of the CSA will receive a weekly share with 7-12 items. The share will vary in size and weight depending on the time of the season. One aspect of CSA is that members support their farmer by sharing the risks (poor weather, drought, disease, early frost, crop failure, etc.) and rewards (the bounty from a good season) involved in farming. Birdsfoot uses techniques that protect the harvest such as growing a wide variety of crops that thrive in different conditions and using crop rotation to avoid disease. The farmers also cover crops to protect against pests and to extend the growing season, cover crop over the winter, and irrigate. If there is still a crop failure of one crop, it will be substituted with another crop of similar value. If there is a total crop failure, the members will not be expected to pay for the season. The goal is to build a relationship of trust between the members and the farmers. On the whole, members will get a variety of vegetables in plentiful amounts. There is no guarantee of the exact amounts or types of produce the members will receive in their shares. By participating in the CSA, members are supporting their local farmers as well as helping to create a more environmentally just, economically fair, and healthy society.

The share costs are for growing food. This year there are no membership or administrative fees. There is a charge for delivery to Potsdam and Canton that cannot be paid with food stamps and will be charged separately for members paying with food stamps.

If a share is not picked up by a member it will be donated to another family or the Canton Neighborhood Center. Shares will not be saved for members unless an arrangement has been made .

Member Signature _____ Date _____

please make checks payable to Birsfoot Farm and mail to 1263 CR25, Canton, NY 13617

Additional opportunities to participate in the CSA and on the farm:

I commit to working at least 3 hours during the season to help out with the CSA.

___tomatoes ___spinach ___basil ___beans ___cucumbers ___other, please specify _____

9. Other comments, requests, questions, concerns: _____

Looking ahead – We also offer a winter CSA, starting in November. We deliver bags of root vegetables every two weeks. A typical bag would include carrots, onions, potatoes, garlic, cabbage, and winter squash with an option for beets, parsnips, and celeriac. Are you interested in the winter CSA? _____
