Weeding garlic

Dear CSA interested friend:

Birdsfoot Farm has been growing certified organic vegetables, flowers, and herbs for over 40 years. We sell at the Canton Farmers Market, the Potsdam Food Coop, Natures Storehouse and wholesale. We also host a lively CSA. Birdsfoot Farm is an intentional community of eight adults and one child. The Veggie Business is set up as a partnership with seasonal workers.

What is a CSA?

CSA is a commitment from the grower to provide in-season vegetables to members. Members pay the farmer up front, or in an installment plan, pick up vegetables weekly, and

volunteer three hours a season to help the CSA. (We do accept food stamps.) The benefit to the farmer is a guaranteed market and a connection to the customer. In return, the member receives fresh, local, in-season vegetables and herbs and a relationship with the farmer. If there is a shortage of a crop, other crops of the same value may be substituted. If there is an overflow, members might get extra. There may also be larger quantities for freezing and canning at wholesale prices.

If you are interested in supporting your local farmer, contact us. Don't worry about what to cook for dinner; the answer lies in your box. This year we plan to have 60 members.

A personal note: For me, farming is a passion. Sometimes it is repetitious and tiresome but there is always something new to learn and I feel in harmony with the soil and plants. Farming is a way of living. Farming grows good food for people and is a service to the greater community, as well as a source of income that provides opportunities for generations to come. -Dulli

Additional (optional) opportunities to participate in the CSA and on the farm by working 3 or more hours during the season to help out with the CSA.

I would like to help with:
Weeding or harvest Newsletter
Garlic festival (mid-July) CSA delivery
Specific dates I could work:
Newsletter
We distribute a newsletter with stories from the farm, important information and dates, and recipe ideas for our members most weeks of the CSA. Would you like to receive this newsletter over email?
Email where you'd like to receive the newsletter:
Questionnaire (optional)
1. How many in your family? Adults Children (age)
2. How often do you eat out?
3. How often do you eat meat?
4. Do you have a garden? What do you grow?
5. What vegetables or herbs are favorites in your house?
6. What vegetables could you do without?
7. Do you have any allergies or other food issues?
8. If you freeze or can food for the winter please check the items below that you might want to buy in bulk. We will contact you if any bulk items become available. tomatoesspinachbasilbeanscucumbersother, please specify
9. Other comments, requests, questions, concerns:
Looking ahead – We also offer a 14 week winter CSA, starting in November 4th. We deliver bags of root vegetables every two weeks. A typical bag would include carrots, onions, potatoes, garlic, cabbage, and winter squash with an option for beets, parsnips, and celeriac. Are you interested in the winter CSA?
